

IIS 90 TWO-STAGE GAS FURNACE

KeepRite®

This KeepRite® furnace comes with the newest heating technology and quality components to give you the ultimate in climate control. You get outstanding quiet, maximum energy savings, and exceptional warranties to assure you of long-lasting satisfaction.

Not too hot. Not too cold.

This furnace keeps your home uniformly comfortable because heat production automatically adjusts to conditions.

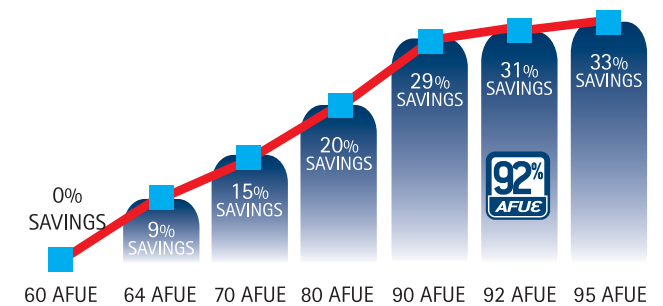

In the two-stage system, the heat is boosted only when the temperature turns colder. The integrated control system adjusts the gas flow and combustion fan to each stage, ending the uncomfortable temperature swings caused by a single-stage furnace.

Built-in quiet.

The IIS 90 is designed to keep the operating noise to a minimum.

Built-in features such as the fully insulated cabinet and the low speed operation of the blower make the IIS 90 run quietly most of the time. Solid doors and an insulated steel cabinet also cut down noise as well as keep in the heat.

Higher AFUE Equals Greater Energy Savings

Top efficiency.

With the latest energy-saving technology, this furnace saves you the most on your heating bills.

The RPJ® III heat exchanger is one major component that contributes to the high 92% AFUE[‡] rating. The ripple-edged design increases heat transfer. Because it's weld-free, there are no seams to crack in the corrosion-resistant stainless steel structure.

[‡]AFUE stands for Annual Fuel Utilization Efficiency.

Impressive warranties.

Every KeepRite unit is backed by exceptional warranties, including our No Hassle Replacement™ limited warranty*, which gives you a replacement unit if the heat exchanger should fail within the first five years. You also get up to a 10 year[§] parts limited warranty* and a lifetime limited warranty* on the stainless steel heat exchanger. And don't forget to ask your dealer about HELP® extended service agreements for additional worry-free protection for parts and labor coverage.

*See published warranty for complete details. To learn more about all of these limited warranties, including the No Hassle Replacement limited warranty, go to KeepRite.com.

[§]Subject to conditions. Ten year warranty requires timely registration. See detailed additional information on back page and Warranty Certificate at KeepRite.com for complete details.

IIS 90 TWO-STAGE GAS FURNACE

1 Reliable
Direct Hot Surface Ignition System features an advanced silicon nitride igniter for greater reliability.

2 Durable
RPJ® III primary heat exchanger has a ripple-edged design that forces more heat to the outside surface for higher efficiencies. Made of corrosion-resistant, weld-free stainless steel.

3 Heating On Demand
Two-stage redundant gas valve and two-speed induced draft blower assembly modulate up smoothly when more heat is needed.

4 Quiet
Enclosed burner, fully insulated cabinet, and solid door design result in quiet operation.

5 System Monitoring
State-of-the-art electronic controls monitor system operation for faster, easier system diagnostics.

Keep warm, keep cool with KeepRite systems.

- a. Humidifier enhances comfort by reducing dryness in the air.
- b. Air Cleaner filters out many indoor air pollutants so the air in your home is cleaner.
- c. Set-Back Thermostat allows you to customize heating and cooling levels and also save energy.
- d. Furnace is designed for maximum comfort and high efficiency and built rugged for years of operation.
- e. Air Conditioner keeps your home cool and comfortable while saving on energy.
- f. Evaporator/Indoor Coil matches your KeepRite air conditioner and furnace to ensure great performance.
- g. UV Lights help prevent the growth of microbes on the coils.

The right choice for your home.

*Many models earn the ENERGY STAR®. Ask your contractor for details or visit www.energystar.gov.

*AFUE stands for Annual Fuel Utilization Efficiency. Higher number = Greater efficiency.

^This KeepRite product carries a ten (10) year limited warranty on parts, including compressor and coils, to original homeowner if installed in an owner-occupied, single-family residence and properly registered within ninety (90) days after original installation. Otherwise, the parts warranty period is five (5) years from the date of installation. Heat exchangers may carry longer limited warranty coverage that applies to original homeowners with timely registration. (See Warranty Certificate for registration instructions. Registration not required in all jurisdictions.)
