

# Relax, it's Rheem...

We've been keeping Canadian families comfortable for over 100 years and that's because we're driven by one simple mission – letting homeowners relax!

The last thing you should be worrying about is whether your furnace can handle the coldest of Canadian winter days. Our commitment to excellence, dedication to dependability and an extensive line of products backed by exceptional warranties mean you don't have to. You can relax with the knowledge that installing a Rheem Canada furnace will keep you comfortable for decades to come.

### Extend your coverage, prolong the life of your equipment and do it on your terms...

Extend your already exceptional warranty coverage with **Protection Plus** extended service protection. Enjoy peaceful comfort without worrying about the cost of parts or labour for unexpected repairs. Talk to your contractor about the variety of Protection Plus plans that are currently available, and protect your investment.

**Kwik Comfort** is the easy and convenient way to finance all your home comfort needs. From your original equipment to service requirements, Protection Plus extended warranty coverage to future purchases, we can help. At Rheem, it's also the flexibility of financing that provides peace-of-mind and makes budgeting simple.

## Other ways we're helping Canadian families relax...

For decades, the Rheem name has been synonymous with water heating solutions. We're proud to offer a full line of heating, cooling, hot water and indoor air quality solutions to meet all your home comfort needs. Talk to your contractor today.

## Communicating Modulating Gas Furnace – equipped with the Comfort Control 2 System

Whisperquiet functionality, best-overall efficiency and state-of-the-art technology combine to provide homeowners with the ultimate in heating solutions.

### Maximum efficiency, maximum comfort:

With the Comfort Control System, this advanced model is seldom off, and seldom on at 100% – always operating at optimum comfort levels. Because the unit is Energy Star compliant, you could save between 5 and 40% on your utility bills and help the environment in the process. *Energy use is maximized and your comfort is maintained all winter long.*

**Manufactured to last:** Primary and secondary heat exchangers are made completely of stainless steel which resists corrosion and prevents thermal fatigue. *Enjoy worry-free performance.*

**Compact and flexible:** Its small size allows for greater installation flexibility and supports the addition of indoor air quality components such as air cleaners and humidifiers. *Talk to us about indoor air quality products and improve the air your family breathes.*

**Quietest furnace on the market:** Reduced firing rates, electrically efficient ECM2+ motor and solid doors provide the ultimate in quiet operation.

**Ingenious thermostat:** Not only does the 550 Series communicating thermostat analyze the heat loss of your home and adjust the temperature accordingly, it will notify you if a service call is required for any part of the system. *Luxury and efficiency at your fingertips and in HD.*

**Sophisticated diagnostics:** The dual 7-Segment LED Display quickly and accurately shows your contractor the source of system malfunctions and retains the system's operation history even in the event of a power failure. *Service calls and troubleshooting are made easy which saves your contractor time and you money.*

Relax, this is the last furnace you'll ever buy

- Limited 10-year parts warranty (register at [www.registermyunit.com](http://www.registermyunit.com))
- Lifetime conditional unit replacement warranty
- Limited lifetime heat exchanger warranty

### The Rheem high-definition communicating thermostat

- An integral component of the most sophisticated and easy-to-use home comfort system available today.
- Analyzes the heat loss of your home and directs the furnace to give you the precise temperature at any given moment.
- Modern appearance with a large high-definition display allows convenient and instant viewing.
- Easy menu-driven programming allows you to set week and weekend temperatures and schedules.
- Auto-configures the system and constantly communicates with the indoor and outdoor heating and cooling components for the utmost in home comfort and peace-of-mind.
- Dehumidification and humidification features add and remove moisture from the home creating a more comfortable and cleaner indoor environment.

## 2-stage Gas Furnace featuring Dual Comfort Control

With **Dual Comfort Control**, this furnace operates primarily in its low-heat stage saving energy and providing consistent and comfortable heat. When the temperature drops, the furnace automatically switches to "high-heat" ensuring you stay warm no matter how cold it gets outside.

**Efficient two-stage operation:** Operates at 70% capacity for low heat and 100% capacity for high-heat. *You save energy and maintain optimum comfort levels.*

**Year-round energy efficiency:** ECM motor provides optimum humidity control, quiet operation and superb efficiency. *Experience healthy air, a quiet indoor environment and maximize your home comfort budget.*

**Components you can rely on:** The primary and secondary heat exchangers are made completely of stainless steel which resists corrosion and prevents thermal fatigue. *A dependable product you can rely on for years to come.*

**Compact design:** Its low-profile 34" design is robust, easy to handle and leaves room for other accessories. *Customize your system to maximize your home comfort, or just enjoy the extra space.*

**It's so quiet, you might not even hear it:** The insulated blower compartment, slow opening gas valve and specially designed inducer system significantly reduce noise. *Quiet comfort you can enjoy.*

**Convenient, clean and environmentally friendly:** A permanent, washable filter makes maintenance care-free and affordable while the variable blower motor provides optimum humidity control. *You can improve your indoor air quality and save money.*

**Smart:** On-board diagnostics with an Integrated Furnace Control directs all activities of major furnace components and features low-speed continuous fan operation and accessory terminals. *Technicians save diagnostic time, and that saves you money.*

Relax, we've got you covered:

- 10-year conditional parts warranty (register at [www.registermyunit.com](http://www.registermyunit.com))
- 10-year conditional unit replacement warranty
- Limited lifetime heat exchanger warranty

## Gas Furnace

**Efficient:** Energy Star rated with efficiencies up to 93.4% for upflow models and 92.4% for downflow. *You save money and energy.*

**Dependable:** Primary and secondary heat exchangers made from aluminized and stainless steel resist rust and corrosion and are backed by a limited lifetime warranty. *Enjoy worry-free operation.*

**Safe:** Direct spark ignition is dependable, efficient and eliminates the need for a standing pilot. A remote flame sensor monitors the burner flame to ensure it is always operating as it should. *Added safety provides peace-of-mind.*

**Quiet:** A specially-designed draft inducer quietly provides air for combustion while venting combustion by-products from the heat exchanger. *Less noise = calm, quiet comfort.*

**Convenient:** A permanent, washable filter is easy to access and maintain. *You'll never have to buy replacement filters again.*

**Smart:** On-board diagnostics with an Integrated Furnace Control directs all activities of major furnace components and features low-speed continuous fan operation and accessory terminals. *Technicians save diagnostic time, and that saves you money.*
